## EDUCATION

---

### **Veer Surendra Sai University Of Technology**

*BTech in Electronics and telecommunication*

Vssut, Burla

*Dec 2021 – Expected Grad : 2025*

### **Intermediate – ST Pauls School**

*Pcm with Computer Science*

Rourkela, Odisha

*2019 – 2021*

## EXPERIENCE

---

### **Hands-Down – Frontend Web Developer – Ui/Ux Designer @hands-down.org**

*Feb 2023 - Mar 2023 – Remote*

- Built a custom website for a business consultant, handling both the design and development aspects of the project from start to finish
- Designed and developed user-friendly interfaces for web applications using Figma, Reactjs, Framer motion, Material UI, JavaScript, and CSS. (Figma-prototype)

### **Graduate Us – Frontend Web Developer – Ui/Ux Designer**

*Mar 2023 -Present – Remote*

- Designed and developed dynamic pages with Framer Motion with dark mode feature. Integrated backend API for dynamic data. Built admin panel dashboard for efficient management. Enhancing website with more features.
- Designed and developed user-friendly interfaces for web applications using Next.js, Figma, Material UI, JavaScript, Framer-motion and CSS

### **Wasper Tech – Frontend Web Developer**

*May 2023 -Present – Remote*

*Bhubaneswar, Odisha*

- Designing and developing the ONDC platform .
- Created a user-friendly dashboard utilizing React.js, Material-UI, and JavaScript. Developed billing pages , notification-pages and inventory stock pages, while actively working on multiple dynamic pages.

## PROJECTS

---

### **Personal Portfolio | Reactjs , Javascript , Expressjs , MongoDB , Mui , Framer | Link**

- I have created a personal minimal portfolio that combines sleek design and simplicity to showcase my work effectively and professionally.
- I possess expertise in creative animation with framer-motion

### **Map Locator | Reactjs , Material Ui , Javascript | Link**

- Developed a user-friendly map locator with a visually appealing interface with dark mode feature
- Implemented distance calculation functionality from origin to destination, including the ability to add stop routes and calculate distances between routes
- Integrated Google Maps API Services to embed maps and fetch location data for accurate distance calculations.

### **Movie-Ticket | Reactjs , Material Ui , Javascript | Link**

- Developed a Sleek dark-themed movie ticket user interface with glassmorphism design.
- API integration for dynamic movie data on landing page.
- Dynamic routing for individual movie description pages with detailed information.
- Demo ticket form with local storage for user data retention.

### **First-Talk — Dating Website | Reactjs, Javascript , Material Ui, Firebase | Link**

- Designed and developed visually appealing website with match section, enhancing user connections based on likelihood.
- Integrated Firebase for secure user authentication, enabling seamless login and signup with Google Authentication and created separate chat rooms for love and friends, facilitating meaningful interactions.
