EDUCATION

Veer Surendra Sai University Of Technology

BTech in Electronics and telecommunication

Vssut, Burla

Dec 2021 – Expected Grad : 2025

EXPERIENCE

STF – Fullstack Web Developer – Ui/Ux Designer

Nov 2023 - Dec 2023 – Remote

- Designed the Seller platform using Figma and developed using Next.js. Innovatively integrated backend functionalities directly into the frontend for optimized performance and a seamless user experience.

Graduate Us – Frontend Web Developer – Ui/Ux Designer

Jan 2023 - July 2023 – Remote

- I have successfully created and completed a student web-based application using Figma, Next.js, Material-UI, and JavaScript featuring several dynamic pages powered by Framer Motion animations and also integrated Rest API . The project also includes an admin panel dashboard for efficient management and ongoing feature enhancements to ensure a comprehensive and user-friendly experience.

Wasper Tech – Frontend Web Developer – Ui/Ux Designer

May 2023 -July 2023 – Remote

Bhubaneswar, Odisha

- I've built a user-friendly ONDC e-commerce frontend platform using Figma, React.js, Material-UI, and JavaScript. The platform contains several dynamic pages for real-time interactions and data updates, showcasing my expertise in web development and UI/UX design.

PROJECTS

Personal Portfolio | Reactjs , Javascript , Expressjs , MongoDB , Mui , Framer | Link

- I have created a personal minimal portfolio that combines sleek design and simplicity to showcase my work effectively and professionally.
- I possess expertise in creative animation with framer-motion

First-Talk — Matching vibe Website | Reactjs, Javascript ,Material Ui, Firebase | Link

- Designed and developed visually appealing website with match section, enhancing user connections based on likelihood.
- Integrated Firebase for secure user authentication, enabling seamless login and signup with Google Authentication and created separate chat rooms for love and friends, facilitating meaningful interactions.

Xpenso | Nextjs ,Expressjs, MongoDB, Material Ui , Javascript , Figma | Link

- Developed a visually appealing Neumorphic UI for an intuitive and modern expense tracking experience.
- Implemented a streamlined system for recording detailed expense transactions, including date, amount, and description.
- Ensured secure user authentication using JWT web tokens and integrated a notification system for high expenses, promoting financial awareness.

FREELANCE PROJECTS

Sweepstake.Mobi | Nextjs ,Material Ui , Javascript | Link

- Designed and developed an engaging landing page for a sweepstakes website, encapsulating the thrill of gaming .
- Integrated a comprehensive admin dashboard with backend functionality, secure UPI transaction systems for user account funding and streamlined processes for adding and managing raffle money, ensuring transparency and efficiency.
