EDUCATION

Veer Surendra Sai University Of Technology   Vssut, Burla
BTech in Electronics and telecommunication   *Dec 2021 – Expected Grad : 2025*

EXPERIENCE

STF – Fullstack Web Developer – UI/UX Designer
Nov 2023 - Jan 2024 – Remote
- Designed the eCommerce Seller platform using Figma and developed it using Next.js.
- Innovatively integrated backend functionalities into the frontend for optimized performance.
- Achieved a significant reduction in page load times, enhancing user experience.
- Improved user engagement through a more responsive and seamless interface.

Graduate Us – Frontend Web Developer – UI/UX Designer
Jan 2023 - July 2023 – Remote
- Created and completed a student web-based application using Figma, Next.js, Material-UI, and JavaScript.
- Developed several dynamic pages with Framer Motion animations and integrated REST APIs.
- Built an admin panel dashboard for efficient management and streamlined content updates.
- Implemented ongoing feature enhancements, leading to increased user satisfaction and engagement.

Wasper Tech – Frontend Web Developer – UI/UX Designer
May 2023 -July 2023 – Remote   *Bhubaneswar, Odisha*
- Developed a user-friendly ONDC e-commerce frontend platform using Figma, React.js, Material-UI, and JavaScript.
- Designed and implemented several dynamic pages for real-time interactions and data updates.
- Enhanced site speed and created an intuitive user interface, improving user experience.
- Contributed to higher conversion rates through a better-optimized platform.

PROJECTS

Personal Portfolio | Reactjs , Javascript , Expressjs , MongoDb , Mui , Framer | Link
- I have created a personal minimal portfolio that combines sleek design and simplicity to showcase my work effectively and professionally.
- I possess expertise in creative animation with framer-motion

Xpenso | Nextjs ,Expressjs, MongoDb, Material Ui , Javascript , Figma | Link

- Developed a visually appealing Neumorphic UI for an intuitive and modern expense tracking experience.
- Implemented a streamlined system for recording detailed expense transactions, including date, amount, and description.
- Ensured secure user authentication using JWT web tokens and integrated a notification system for high expenses, promoting financial awareness.

Doc-Care | Nextjs-14 ,Javascript ,Material Ui, Express-js , Twilio(SMPP) , Stripe ,MongoDb | Repo-Link
- Developed a robust backend featuring RESTful APIs for efficient patient and doctor management. Integrated JWT token authentication to ensure secure data handling and system scalability.
- Simplified appointment scheduling with doctors by integrating Stripe, enhancing user convenience and transaction security.
- Currently focusing on frontend development to enhance user interaction.
